Paid Quiz & Survey Starter Kit

A simple routine for earning small rewards with paid quizzes and surveys, plus the mistakes and red flags to watch for. Print it or keep it on your phone.

✅ Your daily routine

- ☐ **Pick one or two platforms.** Fewer balances means you reach cash-out minimums sooner.
- ☐ **Use a dedicated email.** Keeps survey invites organized and your main inbox clean.
- ☐ **Complete your profile fully.** Profile surveys decide which studies you're matched with.
- ☐ **Check in for 10–20 minutes, once or twice a day.** Quick polls and quizzes first, then longer surveys.
- ☐ **Judge tasks by time, not points.** A short quiz can be worth more per minute than a long survey.
- ☐ **Cash out as soon as you hit the minimum.** Note the threshold and redeem when you reach it.

⚠️ Mistakes that cost you rewards

- ☐ **Letting balances sit.** Some platforms expire inactive accounts or points.
- ☐ **Skipping offer terms.** Miss a required step or time window and the reward may not credit.
- ☐ **No screenshots.** Save proof of completion for bigger offers in case you need support.
- ☐ **Forgetting free trials.** Set a reminder to cancel anything you don't want to keep.
- ☐ **Speeding or inconsistent answers.** Both are common reasons for rejected responses.
- ☐ **Multiple accounts or location-hiding VPNs.** Usually against the rules and can close your account.

🚩 Red flags: walk away if you see these

- ! Paying to join or to “unlock” earnings
- ! Guaranteed big payouts for one quiz
- ! Requests for your SSN, bank login or card number for a small reward
- ! No company name, terms or support contact
- ! Quizzes asking security-question facts (first pet, mother's maiden name)
- ! A check for more than you're owed, plus a request to send money back

🔍 How to pick a site

Before you sign up anywhere, check for these. Pick one or two that pass, complete your profile, then follow the routine on page 1.

- ☐ **Clear cash-out minimum.** The threshold is stated up front and is low enough to reach in a few weeks.
- ☐ **PayPal or gift card options.** Look for familiar payout methods, not just site credit or points.
- ☐ **Real terms and support.** A named company, published terms, a privacy policy and a way to contact support.
- ☐ **No upfront fees.** It should be free to join and free to cash out. Never pay to “unlock” earnings.
- ☐ **Reasonable data requests.** Profile questions are normal; SSN, bank logins or card numbers for a small reward are not.
- ☐ **Recent payout reviews.** Check independent reviews for people actually getting paid recently.
